

Edmonton Today Is Paying Honor To Rt. Hon. R. B. Bennett

Continued from Page One

Chosen leader of the Conservative party at a national convention held in Winnipeg on October 1, 1927, immediately after the reorganization of the Conservative party in Canada, and was successful that at the general elections of July 28, 1926 his party was returned at the polls. Following this election he was entrusted with the task of forming a cabinet and was sworn in as Prime Minister and Minister of External Affairs and Minister of Finance on August 7, 1926. He represented Canada at the Imperial Conference held in London, England, in October 1926 and was sworn in as a member of the Imperial War Council on October 27 of that year.

STILL MEMBER PARLIAMENT
Although his party was defeated in the general elections of 1930, he was personally victorious that year and is still a member of the House of Commons.

Always a prodigious worker, both in law and national service, Mr. Bennett found many outlets for his energy and ability. He was elected an honorary life member of the Canadian Bar Association on August 1, 1932, and an honorary member of the Ontario Bar Association of that year. He is also a Governor of Dalhousie University, a Fellow of the Royal Empire Society.

INTEREST IN RETURNED MEN

His interest in returned men was recognized by an Honorary Life Membership in the Canadian Legion of the British Empire Service League and his appointment as Honorary Colonel of the 10th Battalion of the Calgary Highlanders.

WIDELY RECOGNIZED

His public services were widely recognized by educational institutions and in addition to the degree of Bachelor of Laws with which he graduated from Dalhousie University he has received honorary degrees of Doctor of Laws from Dalhousie University, Queen's University, the University of Alberta, Edinburgh University, University of Toronto, McGill University, Wesleyan University of Middlebury, Conn., University of the State of New York, Harvard University, Cambridge Mass., University of Rochester, Rochester, N.Y., and honorary degrees of D.C.L. from Mount Allison University, N.B., the University of Bishop's College and Syracuse University.

He is an Honorary Brother of Lincoln's Inn, a brother, ex-officio, of the Law Society of Upper Canada, and brother, ex-officio, of the Law Society of Alberta.

Keeping closely in touch with national and international affairs Mr. Bennett's only recreation is reading, and he is a keen student of world affairs in general and affairs of the North American continent in particular.

As an orator and public speaker he has had few equals and no peers during his public life and his fame in this respect is world-wide.

As well known in Great Britain as he is in Canada he is a member of the British Empire Club in Calgary, of which he is the second oldest surviving member at the present time, the Calgary County Club, Hudson and County Club in Ottawa, the Mount Royal Club in Montreal, and the York Club in Toronto. Although never a "minister" in the politically accepted sense of the word, Mr. Bennett was affectionately known across Canada as "R. B." and while his genealogies have never been published, he has contributed largely to all worthwhile objects, while his private assistance to old friends and to young men and women seeking an education are proverbial, although he personally resents any reference to them, publicly or otherwise.

Deeply, but not ostentatiously religious, Mr. Bennett carried his

Sweet and swank—and as new as 1889 is a socialite who took office yesterday. He said "swallowed" that will be paddled if necessary to close them.

Civil officials said the mayor's statements might indicate he will map a "clean-up" drive at the first meeting of the 1939 police commission.

Bookmakers will also be targets of a police drive, the mayor said. "Some say these things cannot be cleaned up," he said, "but I'm sure it can be done."

gaged. Then they struck away. The miners said they had been given I haven't the power to lay a single man off even in mild weather.

"Actually this is the work of four men. The rest want to work, but this is an organized attempt to put me out of business."

POLICE REPORT
Inspector Phil, asked about the situation, said: "This is a dispute between the mine owner and the men. The police have no interest unless a breach of the peace is involved. They are still on guard and no violence or property damage has occurred."

Union Pact Violated
Statement Declares
Charge that the strike at the Bonanza coal mine, 14 miles north of Edmonton, was precipitated by discriminatory fringes and lay-offing of union men employed in the mine in violation of an agreement between the manager of the mine, David J. Gwilliam, and union representatives, was made by John Stokluk, district representative of the United Mine Workers of America, on Friday.

Stokluk branded the statement of Gwilliam as the first step toward breaking the union pact, and from Gwilliam's refusal to sign an agreement with the union as "a liberalizing misstatement."

Dispute between the "de" and Gwilliam dates back to Dec. 7 when Gwilliam flatly refused to grant religious convictions into public life and was always a staunch church member, being a member of the United Church of Canada.

"Such is the man all Edmonton and Northerners and Central Albertans are honoring today, together with all other sections of the Dominion."

MORE LAID OFF
"However, on Wednesday night he men phoned us and told us that Gwilliam had laid off five men. We considered this discrimination, because the men laid off were union men, so we told the men to stay out," Mr. Stokluk explained.

"They have been instructed to stay in the bunkhouse at the mine and to avoid making any disturbance."

ADOLF HITLER DETERMINED ON UKRAINE COUP

Seeks Aid Of Poland In
Taking Rich Russian
Territory

By SEN. WHITEHATER
Associated Press Foreign Staff
BERLIN, Jan. 6.—Chancellor Hitler was regarded by competent observers today as having taken another major step toward realization of a German determination to dominate Europe east of the Rhine.

This was believed to have been the meaning of Hitler's three and a quarter hour speech in the Reichstag today, in which he said that the German government was determined to take the necessary steps to realize its policy of dominating Europe east of the Rhine.

Beck sounded out
Information in reliable quarters indicated Hitler sounded out Beck on whether Poland was ready to cooperate in realizing Nazi dreams.

The Nazis considered France and Great Britain withdrew from continental affairs through the Munich Czechoslovak agreement and that of all north, central and southern Europe in their sphere of direct influence. Poland is the most.

Nazi has their claims to this vast section of the continent on the fact that the German minorities live in all its sections, and that these Germans must be given the right to recognize Hitler as their leader and live as do Germans within the Reich.

Behind this stands the frequently repeated Nazi desire to have access to raw materials of the rich Russian Ukraine.

Different plans for occupation of these districts are discussed here often. One in which Poland would enter. One in which Hitler would have full say on the matter yesterday would seek to give Poland (and Germany) indirect rule over an autonomous Ukraine, including that part of the Ukraine now in Poland and also the Russian Ukraine.

POLAND'S REWARD
The economically autonomous Ukraine would be included in a federal Polish-Ukrainian state under Nazi tutelage, much as Czechoslovakia is linked economically and politically with Germany.

Inclusion of the autonomous Ukrainian Ukraine would reward the latter's reward for helping Germany, even if it involved force to get the Russian Ukraine.

SHE WAS A VICTIM OF HEADACHES

Kruschen got at the Cause
This woman's headaches were of the griping kind that refuse the sufferer to do anything but lie in bed. She tried all the usual remedies, but to no avail. Only Kruschen could help her.

Used to get at the Cause
"I continued taking it, but I had no relief," she writes. "No tablets or pills of any kind could relieve them. One morning, I was in bed, and Kruschen Salt in a glass of hot water. I continued taking it, but I had no relief. I found it very good."—J. L. W.

Headaches can nearly always be traced to sluggishness of the kidneys, liver and intestines, and the unimagined retention in the system of stagnating waste material which poisons the blood. The numerous salts in Kruschen stimulate the internal organs to healthy, regular action so that no clogging waste is allowed to collect. Your inside is kept clean and free.

Kruschen Salt brings quick and lasting relief from headaches.

According To Culbertson

During the past year I have written several articles lambasting the practice of answering an opponent two bids with an ace showing response. I have shown in great length to prove that this immediate ace showing is not nearly as good for partnership bidding as the more moderate response (assuming the responder has the values for a positive bid). There are plenty of bidding conventions by means of which an ace can be shown, and trump suit is determined. Question 2 of the recent examination was liberally devoted to players who use the immediate ace showing convention. With both aces vulnerable, the bidding proceeds:

INCREASE FOR
VOTE PLACES
GIVEN STUDY

Labor Party Proposal To
Open More Polls Held
By Aldermen

Increase in the number of polling places from the present 20 to possibly double that number, with a view to increasing the vote in city elections, will be studied by city commissioners and further by councilmen. It was decided at a meeting of the civic leaders committee Thursday.

The proposal was made by the Canadian Labor Party, who at first suggested increasing the number of polling places to equal the number of present split polls, of which there are 126 at present.

OUTLYING DISTRICTS

James East and H. D. Ainsley, delegates from the Labor Party and former aldermen, stated that they did not intend to press for all of this increase as it was not felt necessary in outlying areas but that there should be more polls in outlying districts.

"We feel that no person should have to walk more than half a mile to vote and an increase of number of polls should be located strategically," Mr. East said.

At the city polls \$10 average rental for polling places, the cost of doubling the present number would be increased by \$1,000. City Clerk Alfred Russell said.

LESS INFLUENCE

Ald. M. B. McCall felt that the number of polling places had less influence on the vote than the question of the day giving figures for provincial and Dominion elections which showed little difference from the civic figures, 1940. City Clerk Alfred Russell said.

"Another thing is that we can't enforce the location of a poll in any particular place, while the province and Dominion can," Ald. McCall said.

Commissioners will study the question and report back to the council.

TECHNOCRACY IS
MAKING CHANGE,
SPEAKER AVERS

The advance of technology is the greatest single cause of social change in North America and in the world, the speaker told an audience in the Edmonton headquarters of Technocracy, Inc., Thursday night.

The changes forced by technology in North America since the beginning of the century are greater than any changes previous, the speaker explained. The speaker pointed out the differences in physical setup between North America and Europe.

"In 1935, this country had over 10 million motor vehicles as compared with only 11 million in the rest of the world. New York alone has more telephones than the combined number in all India, China, Russia, Poland and Czechoslovakia," Mr. Jani claimed.

The Value of Sight

By Jackson Bros. Optometrist

Sight is the most precious gift of the Creator. Of the five human senses, it is more valuable than the others combined. Truly, the value of sight cannot be estimated. There is nothing with which it may be compared.

What a mistake, therefore, to assume that when the eyes are well they require no attention. You think of registering your teeth, yet you can buy new teeth and cannot buy new eyes.

In the days of every person's life, it is the duty of every person to preserve sight by guarding against the ravages of straining eyes.

See that your work or reading is properly lighted. Your eyes should be no cared for.

SPINE ATTACK
CAUSES DEATH
NEWS EDITOR

Former Bulletin Employee
Died Of Spinal Meningitis,
Report Reveals

Further word reaching Edmonton is sure regarding the death in a Seattle hospital Wednesday night of Ernest Cooper, veteran Canadian newspaperman, reveals that death resulted from an attack of spinal meningitis. Mr. Cooper, who worked on the copy desk of The Bulletin from 1912 to 1917, was visiting friends in the Washington city, where he died on New Year's holiday when struck.

At the time of his death he was employed on the news desk of the Vancouver Sun.

COLOURFUL LIFE

In his 34 years, Ernest Cooper had led a colorful life, he had largely to journalism in London, Toronto, New York, San Francisco, Seattle, Portland, Oregon, Vancouver and Edmonton.

Fifth son of the late Commander James Cooper, R.N.R., he spent his early years at sea, then enlisted during the South African War in the 1st Battalion of the Buffs, where he served in South Africa in the same regiment, his father led at the taking of Sebastopol in the Crimean War.

He was a passenger on the Lusitania on her last voyage when she was sunk by a German U-boat, where he distinguished himself in aiding passengers into the boats. He was later, still holding in a desk chair, the body of a man who died, all of whose family were drowned in the sinking of the great vessel.

North Mine Trade
Totals \$3,500,000
Marshall Reports

More than \$3,500,000 of consumable goods were shipped to northern mining points from Edmonton wholesale and business houses, in 1938, compared with \$2,000,000 in 1937. R. C. Marshall, president of the Alberta and North West Chamber of Mines, told the chamber's third annual meeting Thursday night at the Edmonton club.

Optimistic

Board of 27 directors was elected at the meeting, where Mr. Marshall presided. The president and officers of the Chamber of Mines were elected at the board's first meeting next week.

Other speakers were E. L. Tremblay, secretary-treasurer, who will make a detailed review of mining progress in the north during the past year, H. N. P. Tancour, representative of funds and mines and Mayne Adams, W. F.

Following the business part of the meeting, pictures of the north taken by Charles E. Garrett were shown by John Michaels.

Members elected to the board of directors are: R. C. Marshall, R. S. Spencer, W. F. Ryan, E. L. Tremblay, J. M. MacArthur, J. O. Budd, H. N. P. Tancour, J. M. MacArthur, W. W. Watson, H. J. Macdonald, J. H. Williams, W. J. Dick, G. E. Hay, H. N. P. Tancour, J. M. MacArthur, C. H. O. Peterson, J. Walker.

Mr. Marshall said that the Chamber of Mines was organized to represent the interests of the north and to act as a clearing house for the members of the board of directors sent each year.

Auto Accident:
Woman Injured

Mrs. R. C. Reardon, of Banff, received a deep cut on the back of her head at 8:30 p.m. Thursday when the parked car in which she was sitting was struck by a car operated in an Edmonton resident. The minor accident occurred on the city street as it ran in a rut on the icy street as it was about to pass the parked auto, and ran into the rear of the standing vehicle. Mrs. Reardon was taken to a nearby house, where a doctor gave her medical treatment.

OLDEST WINTER SPORT STILL THRILLS

Famous Commentator Tells Story Of Skis

This article was specially written for The Edmonton Bulletin by "Clara" Settell, known as the "Old Glacier" on the World of Sports, and is a special feature of the "World of Sports" column.

By CLARA SETTLE.

It is rather surprising the number of people who think that skiing is a twentieth century development, probably owing to the fact that the slippery board sport has been so widely publicized in the past few years. In fact, the subject is about as old as time, in certain groups, when winter approaches and, in listening to their conversations, one often hears the word pronounced "chee," probably owing to the fact that a ski is slippery and hard to handle—I wouldn't know.

While it is a pleasure to give the history of the origin and advancement of the sport, I must say that I am not personally a devotee. I did go to it once, when some late friends induced me to do this, strap a pair on me, set me on top of a hill, after which the foul friends in human form gave me a push and I hurried "chee-ly" here I come! I was pleased up a few moments later, broken and bruised, and then there firmly made up my mind that the equipment included an engine and a soft motorist. I would have no part of it except along writing and broadcasting lines.

Skating was the first winter sport known to man and it is said that the Eskimos have been using it for thousands of years. The Eskimo is a very hardy and resourceful people. He has been known to travel hundreds of miles on his skis. He has been known to travel hundreds of miles on his skis. He has been known to travel hundreds of miles on his skis.

That is a long, long time when one considers that it is only within the past 20 years or so that the word "ski" has become a familiar word in the world. It is a word that is now used in many parts of the world. It is a word that is now used in many parts of the world.

MENTIONED BY WRITERS
Among the famous writers who have thought the sport worthy of mention are Prospero, the century; Hans Christian Andersen, in his "Voyage and Travels" (early 18th century); Sir Arthur Conan Doyle, in 1883; and many more. It is evident from these writers' accounts that the ski was used for pleasure and

The record of the formation of the first seven organized clubs in the world is a story of dedication and sacrifice. The first club was formed in 1883, and since then the sport has grown steadily.

THRILLING METHOD
However, it was not long before the thrilling method of skiing was introduced. This method involves a series of jumps and turns, making it a very exciting sport.

It was during the late 1800s that the sport really began to become popular. This can be seen by the many accounts of people enjoying the sport.

During the war skiing came to a standstill, but it started again with renewed vigor after the Armistice. The development of modern technique has been amazing, and it is now considered one of the most thrilling sports in the world.
